# Welcome to ChildPlus!

Welcome to ChildPlus! Whether you are a new user or a seasoned ChildPlus veteran, we've designed this book to familiarize you with the **To-Do List** and the **Dashboard**.

You can use the **To-Do List** to keep track of your appointments in either a calendar or list view. The **Dash-board** lets you see a quick overview of your agency's progress. The **To-Do List** also displays reminders and alerts you when you have important deadlines or tasks that requires immediate attention.

## **Additional Resources**

In addition to this guide, you can also access this information through the **Help** menu in ChildPlus. Click on any item on the **Help** menu to go directly to the help topic associated with it. To access ChildPlus Help, click on **Help** > **ChildPlus Help**:

## ChildPlus and the PIR

The fields that ChildPlus uses to calculate your PIR are easily identifiable in both this guide and within ChildPlus because they have a red <sup>PIR</sup> label next to them. Within ChildPlus, you can click on these red <sup>PIR</sup> labels to find out how ChildPlus uses the field to calculate the PIR.

## Tour of ChildPlus

ChildPlus's user interface includes a **Main Menu** bar at the top of the screen. Through the **Main Menu** you can access different areas of ChildPlus (**Services**, **To-Do List**, **Entry Express**, **Management**, **Dashboard**, **Reports** and **Setup**).

Directly below the **Main Menu**, you'll find a **Search** box that you can use to quickly search for participants and family members.

On the left side of the screen, you'll find the ChildPlus **Participants List**. The **Participants List** is a customizable list of participants who are available for you to work with in ChildPlus. Using this list, you can quickly select the participant whose record you want to work with.

Once you select a participant to work with, you'll be able to choose a service area module from the **Par-ticipant Menu**.

#### **Customizing Your Screen Color in ChildPlus**

Freshen up your day by choosing your favorite color! You can control how your ChildPlus screen looks with colors. We've built in 19 different color themes that you can use to customize the look and feel of ChildPlus. You can also choose the color of the **Participants List** in ChildPlus.

### **Customizing Your Screen Color**

Follow these steps to customize the color of your ChildPlus screen:

- 1. Click on the 🕸 Gear.
- 2. Select the color that you want to use.

Click **Select Custom Colors** if you want to define the exact color of your top and bottom menu in ChildPlus.

Click **Seasonal Changes** if you want to use our seasonal theme that automatically changes based on the season.

### **Customizing the Color of Your Participants List**

Follow these steps to customize the color of your **Participants List** (left sidebar):

1. Click on the 🗱 Gear.

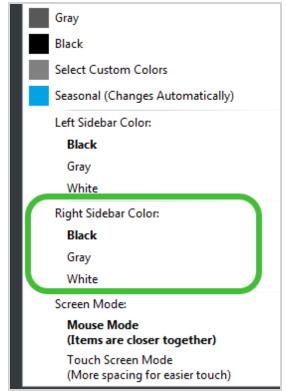

2. Choose a Left Sidebar Color of either Black, Gray or White.

### Customizing the Color of Your Right Sidebar

Do you think your screen is too bright? Try adjusting the color of your right sidebar. Setting it to black or gray will help decrease the brightness on your screen.

- 1. Click on the 🔀 Gear.
- 2. Choose a Left Sidebar Color of either Black, Gray or White.

#### Using the Participants List

The **Participants List** is a customizable list of participants who are available for you to work with in ChildPlus. Using this list, you can quickly select the participant whose record you want to work with. You can customize this list to display all the participants in your program or just the participants that you work with on a regular basis. For example, if you only work with one or two classrooms then you can customize this list to only display participants associated with your classrooms.

The **Participants List** pane docks to the left side of your screen and is the optimal method for navigating the records of participants in ChildPlus.

You can use the  $\square$  and  $\square$  buttons to move through the different participants in the list. These buttons work just like the **Previous** and **Next** buttons in previous versions of ChildPlus.

You can also use the *Alt+Up Arrow* and *Alt + Down Arrow* keys on your computer's keyboard to move through the different participants in the list.

#### **Customizing the Participants List**

To customize the list of participants that displays in the **Participants List**:

- 1. Click Change List.
- 2. Change your selection criteria.
- 3. Click Find to update your Participants List.

#### Searching for Family Members

You can use the **Search** feature above the **Participants List** to quickly **search** for participants based on criteria such as their name (first, middle, last, or preferred), social security number, birthday, phone number, email address, application number. You can quickly access this system feature using the A/t+R hotkey<sup>1</sup>.

The types of searches you can perform using this feature range from basic (for example, any family member with the last name of 'smith) to advanced (for example, any family member whose name starts with the letters 'x', 'y' or 'z').

See Searching Tips and Tricks to learn more about searching for family members in ChildPlus.

## Adding a New Family to ChildPlus

You can use **Application Express** to quickly add new families to ChildPlus. Follow these steps to add a new family:

- 1. Click MAD Family
- 2. Complete each of the fields for the applicant. What if I want to add a family member who is not an applicant first? You can change the type of family member you want to add by making a different selection in the **Adult or Child** and/or **Applicant** fields.
- 3. To add another family member, click the **Add Member** drop-down and choose the type of family member you want to add.

To speed up the initial application process, you can just enter the primary adult and applicant. You can always go back and add additional family members at a later time.

- 4. Complete the **Family Information** section of the screen. You'll provide details about the family's address, phone number(s), **Parental Status**, **Relationship to Participants** and their primary language at home in this section of the **Add New Family** screen.
- 5. Complete the **Family Income** section of the screen. In this section, you'll provide details about each of the family's income sources.

If you still want to record income for the entire family, instead of by family member, simply leave the family member field blank.

- 6. Type the name of the first emergency contact for the family in the **Add Emergency Contact** box and complete their information. Repeat this step for each of the family's emergency contacts.
- 7. Use the **Enrollment** section of the screen to create a participation record for the participant.

If you don't want to enter this information on the **Add New Family** screen, you can add it via the **Enrollment** module or **Entry Express - Enrollment** at a later time.

8. Use the **Immunizations** section of the screen to add the participant's immunizations information.

If you don't want to enter this information on the **Add New Family** screen, you can add it via the **Immunizations** module at a later time.

 Click either Save and Add Another to save the current application and add another one or Save and Close to save the family's application.

### Working with Family Members

Once you open a participant in a tab, you will also be able to see each member of their family. When you select the name of the a member of the family, you'll be able to see their information in the different sections of the family's **Application**.

If a family member is not a participant, they'll only have access to the **Application** and **Family Services** modules in the system. To view their information in another module, you'll need to make them a participant.

#### Making a Family Member a Participant

Family members who are not participants only have access to the **Application** and **Family Services** modules in the system.

If you want to make a family member a participant so that you can view or record information for another Service Area module, you can do so directly from the family's **Application**. To make a family member a participant:

- 1. Open the **Application** module. *How do I do this? Click* **Services** > select the family member's name from the **Participants List** > click **Application**.
- 2. Select the family member you want to make a participant.

#### 3. Click More and choose Make Participant.
